AsTumbo/Finegayan/Machanaonao Elementary

The Summer School Times

Possible Fieldtrip

We are looking into a possible fieldtrip for our summer school students to Underwater World. The cost of the fieldtrip will range from 10 to 15 dollars, depending on available busing. A survey will be forthcoming to determine parent interest in having your participate.

After School Safety

To ensure that all students are safely picked up afterschool, please be mindful of the following procedures:

1. Buses will enter the school FIRST. No cars will be allowed to enter the gate until the buses have left.
2. Front gate walkers will be walked out to the front gate. For the safety of your child and because of traffic, please wait for them at the front entrance gate.
3. The car line will be allowed to enter AFTER the buses have left and the front gate is opened.
4. ***In the event that it is raining, all walkers (front gate and back gate) will be picked up at car-rider line.***

We want to make certain that all our children leave school safely and ask for your patience and cooperation in this matter.

The first weeks of Summer School

The first day was filled with excitement as students loaded into the classroom ready for learning. Although our teachers just finished the school year, they are still energized and eager to work with the kids from AsTumbo, Machanaonao, and Finegayan. With the schools combining their students and their resources we will be working diligently to provide the kids with fun learning that will reinforce what was taught in the school year. Our focus is on language arts and math and teachers will use STEAM (Science, Technology, Engineering, Art, and Math) units to cover these areas.

If you have any questions regarding instruction, the program, or the upcoming activities, please do not hesitate to contact Ms. Villanueva, Mrs. Prudente or any of our summer school teachers at the school (635-4363).

Just a few announcements and reminders...

BUS STATIONS

Site 1: AsTumbo Gardens, Upper AsTumbo, Lower AsTumbo

Site 2: Ironwood (all phases)

Site 3: Santa Ana, Manibusan, Fern Terrace, K-land, Marquez, Palomo, Emsley and Manibusan

Site 4: Machanaonao

STUDENT PICK-UP AND CHANGE IN TRANSPORTATION

If you are changing your child(ren)s' mode of transportation, **please send a note to the teacher or come into the office** and update the registration informing us of any transportation changes. **Phone calls regarding transportation changes will not be accepted. All individuals picking up students must be 18 years or older, must be on the authorized pickup list, and must have a valid form of identification.**

If you have any questions, feel free to contact your summer school teacher or the coordinators at the school (635-4363).

ASSESSMENTS

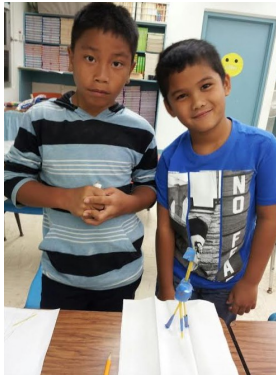

This week, teachers are assessing what students know so they can tailor the instruction to their students' needs. Students will be tested on basic language arts and math skills that they have learned in their previous grade level to see what they have mastered and what they need to reinforce. To make the learning more successful, please talk with your child about what they are learning in school, check if they have homework, and encourage your child to read daily.

Mrs. Pestanas' class
Champs Homework for
the week

What we did these past two weeks...

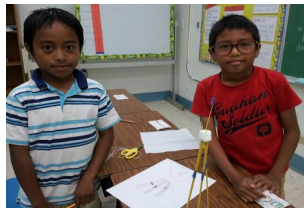

Teachers and students were busy this week as they administered assessments, reviewed rules and procedures, and covered science units and activities. Here are just a few of the many activities that they did this week.

Mrs. Wusstig's class participating in STEAM activities.

Mrs. Muth uses manipulatives, paint and many other materials in their learning.

Ms. Heramil's class learns math through multiple means.

Mrs. Felipe's class engage in multiple science and math activities.

D101 engage in multiple science and math activities.

(left) Mrs. Pestanas' class in learning centers. (right) Mrs. Tibudan's class do an engineering activity about bridges.
